Knowledge Management and Learning | Content Management | Digital Transformation

sujathom@gmail.com

(202) 989 8367

Silver Spring, MD, USA

Knowledge Management and Learning Specialist with 23 years of experience, including over 14 years at the World Bank Group (WBG), working across Controllers, ITS, and Operations. I lead KML work that helps staff find reliable knowledge faster and use it with confidence. Certified Knowledge Manager through the American Productivity & Quality Center (APQC), with strong experience in knowledge, content, learning, and communications that help staff adopt new tools and ways of working. I am passionate about turning complex knowledge challenges into practical guidance and learning that staff can use.

Core Competencies

- **Knowledge Systems and Digital Platforms:** Applying governance and information management standards across SharePoint, Microsoft Teams, OneDrive, and ServiceNow, with content lifecycle management from creation to retirement.
- **Knowledge Curation and Dissemination:** Turning fragmented information into clear, reusable assets, including good practice repositories and lessons learned.
- **Digital Modernization and AI:** Using AI, prompt refinement, and light automation to improve self-service and reduce manual effort.
- **Taxonomy, Metadata, and Findability:** Improving content classification, tagging, and search so staff can locate the right guidance quickly.
- **Staff Learning and Capacity Building:** Designing and delivering eLearning, peer learning sessions, and on-demand resources that support adoption and build staff confidence.
- **Communications, Engagement, and Change Management:** Writing newsletters, intranet and website updates, campaigns, and executive updates that explain change, increase engagement, and support adoption of new tools, platforms, and ways of working.
- **Stakeholder Engagement:** Working across institutional and sectoral boundaries with SMEs, contributors, and senior management to align priorities and keep delivery on track.
- **Metrics, Reporting, and Continuous Improvement:** Using feedback and usage data to spot gaps, improve content, and make knowledge products more useful over time.

Key Achievements

- Led the enterprise WBG IT Knowledge Base transformation, evolving the repository into a high-traffic digital self-service channel for WBG users, with 10,600+ articles, 50,000 monthly visits, 5,400 monthly unique users, and 95%+ user satisfaction.
- Conceptualized and championed AskMailT, a generative AI chatbot, helping drive 76% of Knowledge Base usage by non-IT users and reducing dependence on live support.
- Led the knowledge governance workstream for the volunteer-led Knowledge Impact Catalyst Team, identifying gaps and recommending practical improvements to strengthen knowledge management across WBG.
- Led website revamp and content restructuring for the Water GP intranet, including page design, UX improvements, and large-scale metadata tagging. Improved content discoverability through taxonomy alignment, document organization, and search optimization.

- Built the Controllers' internal website, bringing information from 3 departments and 13 divisions into one central hub to improve access and consistency across the VPU.
- Spearheaded the modernization of 108+ SharePoint sites in Controllers, partnering with business and ITS teams to migrate legacy content and apply metadata standards that improved search, findability, and reuse.
- Designed and led eLearning modules and QRGs for ePayables, VAA, LIBOR, Letter of Representation (LOR), and Controllers' Learning Program building staff capacity on key business processes and earning VPU Awards for impactful learning support.
- Served for four years as communications lead on the organizing committee for the annual Controllers Knowledge Forum (online and virtual), coordinating a flagship knowledge-sharing event with 300+ participants across locations.
- Created Innovation Central, an in-house Power Apps and Power Automate solution for Controllers that surfaced staff ideas, encouraged peer interaction through upvoting and comments, and strengthened a culture of innovation and knowledge exchange.
- Led the design of a structured onboarding experience for new staff in Controllers, combining a SharePoint site and welcome program to make orientation more consistent, practical, and engaging.

Professional Experience

THE WORLD BANK GROUP

Knowledge Management Analyst | IT Analyst | Service Management Analyst

Oct 2011 – Present | Chennai, Washington, DC

- Led governance and modernization of the enterprise IT Knowledge Base and SharePoint intranet, setting information management standards and improving quality, classification, and findability of information.
- Translated Knowledge Base usage and satisfaction data into monthly insights, improvement priorities, and action plans for content owners.
- Trained 14+ ITS teams, including the Knowledge Management team I lead, on practical KM guidance and governance practices that improved knowledge capture and quality.
- Piloted AI-enabled knowledge solutions by curating source content, testing prompts, and using stakeholder feedback to improve staff self-service and response quality.
- Helped teams adopt new tools and knowledge practices through clear communications, practical guidance, stakeholder coordination, and learning resources.
- Designed and delivered 50+ learning sessions across ITS and Controllers, helping staff adopt tools, follow KM practices, and turn operational knowledge into reusable guidance.
- Redesigned 20+ SharePoint sites, including the Water Global Practice site, improving structure, navigation, and classification so staff could find and reuse content more easily.
- Curate and publish the Tech Solutions weekly newsletter, turning operational updates, what's new items, AI insights, and newsworthy content into clear, timely messages for about 600 staff.
- Supported communities of practice by facilitating discussions, capturing decisions, and turning shared insights into knowledge others could find and use.

LIONBRIDGE TECHNOLOGIES INDIA

Senior Writer

Feb 2010 – Oct 2011 | India

- Led a team that delivered user guides, admin guides, online help, and release content for multiple application releases.
- Reviewed white papers and help documentation for various releases of Microsoft Dynamics ERP

- Ran Quality Assurance and compliance reviews to improve accuracy and consistency, created best practice checklists, and refined authoring workflows to reduce rework and speed up release readiness.
- Developed training materials, white papers, and quick reference guides, working with product, engineering, and offshore teams to support adoption.

COGNIZANT TECHNOLOGY SOLUTIONS

Technical Writer

Feb 2005 – Feb 2010 | India, USA

- Led documentation projects and trained the team on technical writing guidelines and standards.
- Created and maintained installation guides, admin guides, end-user documentation, and online help for enterprise applications, translating complex workflows into clear guidance.
- Partnered with SMEs and developers to gather requirements, validate content, and maintain versioned updates across releases.
- Improved documentation structure and usability through templates, style guidance, and task-based organization.

SIFY LIMITED

Instructional Designer

Oct 2003 – Feb 2005 | India

- Designed eLearning courses and storyboards for computer-based and web-based training, with a focus on learner outcomes and practical scenarios.
- Developed user documentation and online help for a banking website, partnering with technical teams to validate accuracy and usability.
